DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Figures 1 and 2, need to be corrected.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire TWO MONTHS from the mailing date of this letter.

Drawings

2. The drawings are objected to because Figures 1 and 2 does not contain descriptive labels. For example, reference number (10). Should be labeled motion estimation. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claims Allowed

3. Claims 1-15 are allowed.

Reasons For Allowance

4. The following is an examiner's statement of reasons for allowance: the closet prior art of Ran U.S. 5,768,434) provides for transmitting and storing information digital information using a quadtree code with embedded Walsh transform coefficients. Further the processor 1140 breaks the difference frame in the a series of square sub-images such as series of 16 by 16 pixel sub-images and provides a quadtree code for each separate sub-image. Fig.5 col.11 lines 60-64. Ran failed to teach or suggest for "obtain the bit plans of said residual image represented by quadtrees; process said quadtrees with estimation to obtain an estimation quadtree file; calculate the difference between quadtrees of said residual image and quadtrees of said estimation to obtain a difference quadtree file; encoding quadtrees of said estimation quadtree file and said difference quadtree file". As cited in independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
